

The FAA Safety Team presents:

## **EAA Chapter 1083 Safety Seminar & Cookout!**

Don't miss this exclusive opportunity to learn about Beyond the Preflight! Sharpen your skills before you fly to Sun N Fun and other fly-ins this Spring. This event will feature a fly-in, cookout and safety seminar sponsored by the Experimental Aircraft Association (EAA) Chapter 1083. Following the safety meeting, enjoy great burgers, dogs and fresh cut fries at a very modest price! Beyond the Preflight is designed to enhance your aircraft preflight knowledge beyond the standard use of a preflight checklist. This program will teach you additional items and techniques you can apply to the preflight inspection in conjunction with the standard aircraft preflight checklist to help reduce your risk of an accident. Click on the link below to see all the details and to register today!

**Directions:** EAA Chapter 1083 Hanger is located between the two rows of T-hangars on the West end of the North Ramp. During our activities we open Gate 4 located behind the blue roofed hangars, then you can drive to the EAAGles Nest Area. Please use caution as aircraft often operate on this area.

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
